

June 2024

Our Coalition invites you to join us at a timely, compelling live talk by life-long environmental activist, educator and author, **Bill McKibben**. He will call for what's needed now to save our planet and democracy, what's bringing him joy and gives him hope, and why he believes Third Act can have a huge impact on making our world a better place for all of us, and for generations to come.

As you may know, Bill is renowned for mobilizing popular support for action on climate justice and democracy. He has authored twenty books, including *The End of Nature* (1989) which is regarded as the first book for a general audience about climate change. He also helped found 350.org, the first global grassroots climate campaign.

Bill has organized protests on every continent, including Antarctica, for climate action. In 2022 he founded **Third Act**, a national organization with over 70,000 members that organizes people over the age of 60 for action on climate, justice, and democracy.

Bill will call us to action to inspire and motivate us to take stepped-up action on climate and democracy, especially in the face of intensified climate disruption, political polarization and backlash, and our democracy in peril. His talk will be followed by questions and answers.

Sponsored by **Third Act Washington (TAWA)**, us, and other groups, Bill McKibben will speak on **July 2nd at First United Methodist Church, 180 Denny Way**. Register here: [An Evening with Bill McKibben](#).
